

TECHNICAL DATA SHEET

Pine Oil 50

- Pine Oil 50 is a mixture of Terpene Alcohols and Hydrocarbons. It has excellent polar and non-polar solvency.
- It is produced from Turpentine, a 100 % renewal raw material.
- Pine Oil 50 is primarily used in household and industrial cleaning compositions but can also be used in solvents, coatings, PV pastes, and enamels.

Specifications

Property	Specification
Specific Gravity (g/ml @ 30°C)	0.8900 – 0.9200
Refractive Index (n. _{25°} /D)	1.4750 – 1.4850
Color	Colorless to pale yellow.
Odor	Matches Standard
Terpene Alcohols by GC	50% minimum

Packaging: **Drums:** 55-gallon (208-liter) New Phenolic Lined,
 IBCs: 275 gal one way poly totes
 Bulk: Tank trucks
