PRODUCT DATA SHEET

dSolv TD1

dSolv TD1 is a full service alternative to d-Limonene across a wide spectrum of applications, ranging from household/institutional cleaning to heavy industrial degreasing, including considerations as an oilfield paraffin/EOR emulsifier. It has been formulated to exhibit the solvency of d-Limonene and offers a mild citrus fragrance.

Benefitting many "Green" formulas, this product is derived from nature identical ingredients and presents low toxicity along with a near 100% biodegradability in 28 days.

Typical Properties

Visual Appearance	Transparent Liquid
Color	Clear to Pale Yellow
Odor	Confirms to Standard
Refractive Index	1.451 – 1.500
Flash Point, (TCC)	48°C (118°F)

Packaging: **Drums:** 55-gallon (208-liter) New Phenolic Lined,
 IBCs: 275 gal one way poly totes
 Bulk: Tank trucks

Storage Considerations:

dSolv TD1 should be stored in a cool, dry place, with ample ventilation and preferably in a fire resistant building. Shelf life is up to 24 months from date of manufacture and is packaging dependent. BHT may be added to further stability upon request.
